- 2. The default is your best Public Score

Common Issues in Submissions

Wrong Column Header Specified

The required column header was new_number.

However, this submission labelled the header as newnumber.

Missing Rows

The required number of rows is 101. However this submission only contained 100 rows instead of 101 rows.

Additional Columns

The required columns are id and new_number.

However this submission contains an additional column labelled 'another column'.

Wrong Index

The required id is a series of numbers from 0-100. However this submission labels the id as 1-100.

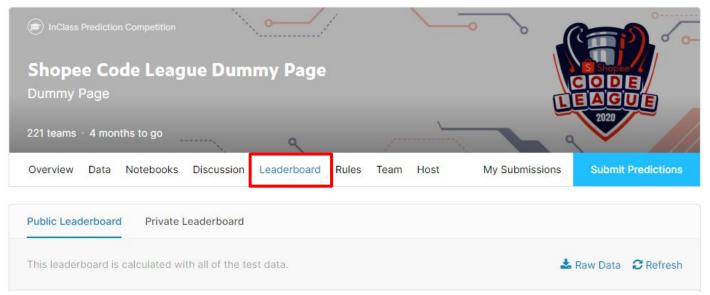

The Leaderboard

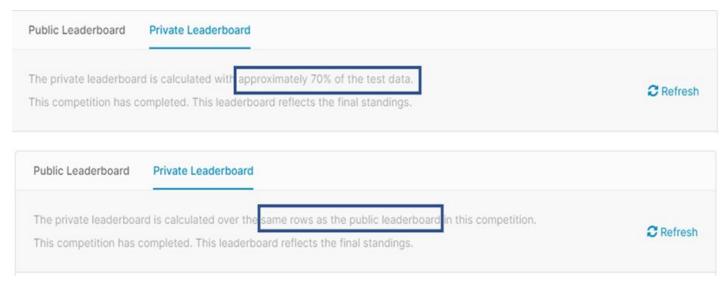

Click 'Leaderboard'

Private Leaderboard

Only the scores on the **Private Leaderboard** will be taken into consideration for calculation of points.

Rankings

 Rankings may change from the Public and Private Leaderboards

 The Private Leaderboard will only be shown after the competition closes

Point System

Each of the competition has **different amount of points** awarded for different tiers of scores on the Private Leaderboard based on competition difficulty. For this competition, the points awarded are as follows:

Tiers	Points
0 to 0.25	5
>0.25 to 0.5	10
>0.5 to 0.75	15
>0.75 to <1	20
1	25

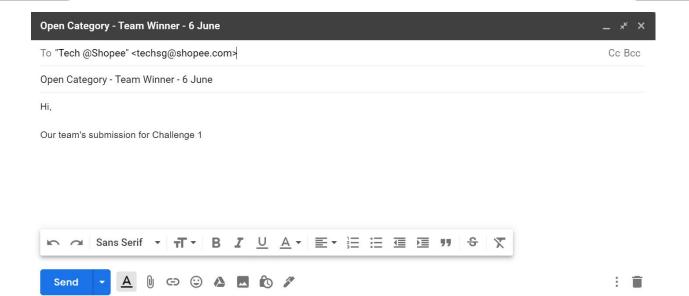

Example:

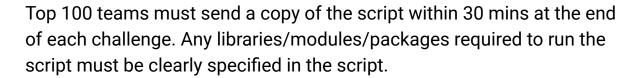

- Team A scored 0.5000 on the Private Leaderboard. they will be awarded 10 points for the challenge
- Team B scored 0.5001 on the Private Leaderboard, they will be awarded 15 points for the challenge
- Team C scored 1.0000 on the Private Leaderboard. they will be awarded 25 points for the challenge
